NEW PRODUCT ANNOUNCEMENT – TRU-BRIX REAL BRICK SIDING

Rockville, Md., September 8, 2008 - Potomac Valley Brick and Supply

Company (PVB) is proud to announce distribution of a revolutionary new product in our thin systems line. Tru-Brix, owned by Redland Siding System, is installed with a permanent mechanical bond and rail system that can be used over virtually any surface. Tru-Brix is designed to replace any vinyl, wooden, or aluminum siding application.

Instead of semi-permanent adhesives, the system utilizes a steel rail along with 1” brick slabs that are clipped and then tuck pointed into the rail. The steel rail, house wrap and fasteners are in stock in our Baltimore and Rockville yard locations. The brick slabs, shapes, and system-specific mortar are made to order.

PVB will distribute Tru-Brix in the following areas:

- **Maryland** – Anne Arundel, Baltimore, Calvert, Carroll, Cecil, Charles, Frederick, Harford, Howard, Montgomery, Prince Georges and St. Mary’s counties.
- **Virginia** –Arlington, Fairfax, Fauquier, Loudoun, Prince William and Stafford counties.
- **Washington, DC**

Celebrating more than 30 years in business, Potomac Valley Brick & Supply Co., Rockville, MD is the leading full service masonry supplier to the Washington, Baltimore, and Northern VA Metropolitan areas.
