# Who We Are

Potomac Valley Brick is a full-service, family-owned masonry supplier that offers contractors, developers, architects, builders and residential customers the widest selection of quality brick products in the region. Since 1976, our committed team has provided customers independent expertise in the product selection, design and application of the industry's finest and most prestigious brick lines.

## Who We Serve

CONTRACTORS

DEVELOPERS

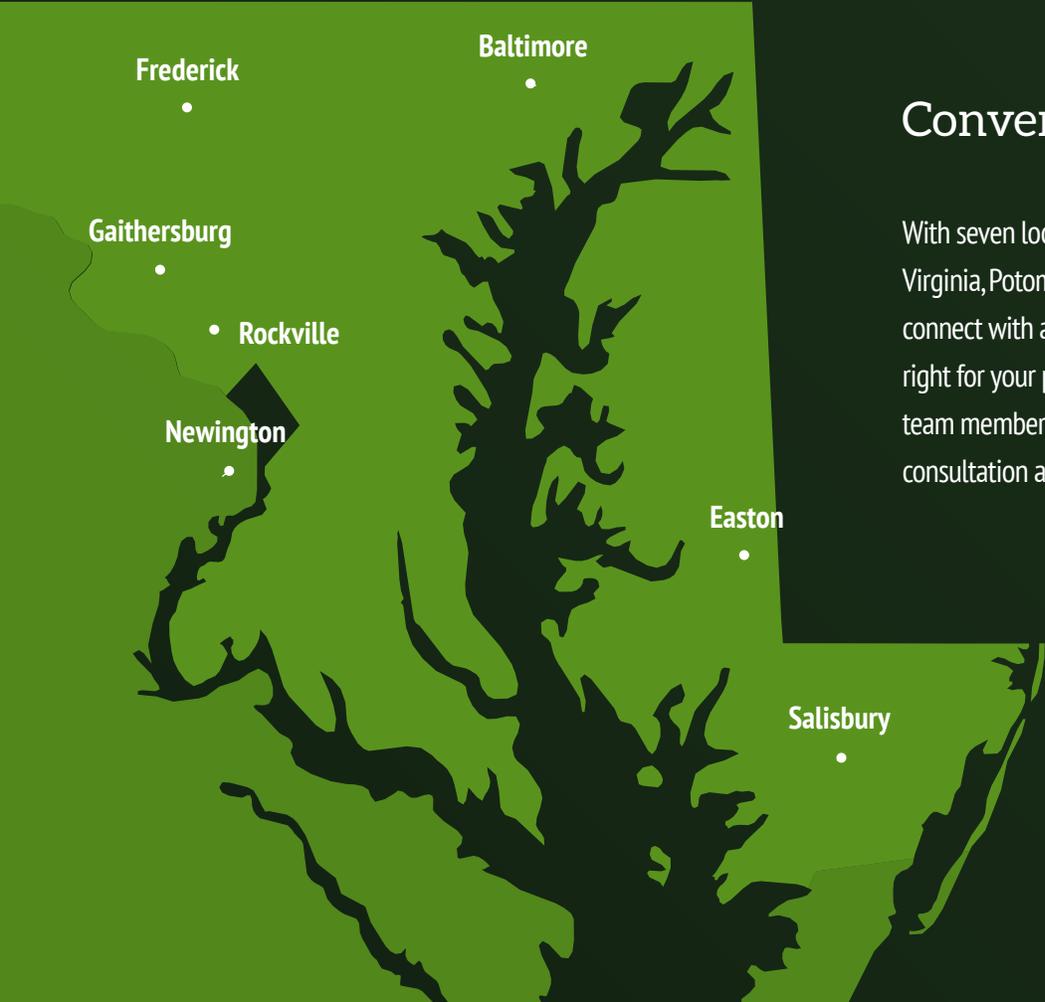

ARCHITECTS

BUILDERS

RESIDENTIAL

## Convenient Locations

With seven locations throughout Maryland and Northern Virginia, Potomac Valley Brick makes it easy for you to connect with a professional and find the product that's right for your project. Our knowledgeable and friendly team members serve as your trusted partners for expert consultation and assistance.

# Our Expertise

## Logistical Proficiency

We align your needs with facility shipments from our yard locations to make sure that you get the right material on time.

## Product Samples

We supply you with sample pieces, boards and displays of many of our products, all to help you visualize how each will look on your project.

## Specialized Cutting Services

Need a unique shape or size for your product? We maintain a staff of expert masons who will consult with you in these special situations. We also maintain close relationships with manufacturers to special order the exact shape and size when needed.

*“We have been a customer of Potomac Valley Brick for more than 40 years. Their experts are knowledgeable and courteous, and I look forward to continuing our relationship for many years to come.”*

# PVB Masonry Services

- COLLABORATIVE TECHNOLOGY
- INCREASED PRODUCTION
- IMPROVED SAFETY
- BETTER PLANNING
- CONTINUOUS IMPROVEMENTS
- REAL-TIME DATA

PVB Masonry Services, a Potomac Valley Brick company, combines technological innovation with skilled labor to make the installation process easier and more profitable. By **renting, leasing and selling** mason-assisted robotics and automated tools, we help masonry contractors, architects and real estate developers save time and money while maintaining the highest level of craftsmanship.

Our mission is to continuously provide customers with new products and technological advancements that make their lives easier and solve the challenges of the construction industry.

# Supplied Technologies

**SAM (Semi-Automated Mason)** is a revolutionary brick laying robot designed and engineered by Construction Robotics. Working collaboratively with the mason, SAM reduces lifting by more than 80 percent and increases productivity by 3-5 times, making construction projects safer, faster and more cost-effective. Its real-time production data also helps companies continuously improve processes and avoid potential problems.

**MULE (Material Unit Lift Enhancer)** is a lift assist device from Construction Robotics that helps bring true ergonomics to a physically-demanding industry by handling and placing material weighing up to 135lbs on a construction site. Simply put, MULE does the heavy lifting for you with end users often seeing significant productivity gains.
